VOLUME NO. II

ISSUE NO. VII

HIGHLIGHTS OF THE MONTH

This was a month of celebrations and the official beginning of the festive season in India, with multiple gazetted and non gazetted holidays such as Independence Day, Rakshabandhan, but what was all over the news and was a milestone for the entire community of Space Research and Development is the successful landing of Chandrayan -3 at the south point of the Moon.R

This was indeed an achievement to cherish for and it made India the 1st country to achieve this feat. Congratulations and thanks to the efforts of ISRO.

And at Utkal Labs, the highlights of the month remains the below -

01

Odisha Spark Conclave - 2023

02

Completion of Communication Workshop

03

Re-designing of Social Media Stars

FROM THE HR'S DESK

Dear Team,

As autumn leaves whisper tales of transformation, our dynamic workforce continues to be the vibrant heart of our organization. Each individual, a brushstroke on the canvas of innovation, adds a unique hue to our collective masterpiece.

In this kaleidoscope of brilliance, let us celebrate our shared journey, acknowledging that every endeavor contributes to our grand narrative, no matter how small.

Together, we craft a legacy of excellence, enriching not only our organization, but the world beyond.

Looking forward to the shared camaraderie and partnered growth.

Regards,
HR Team
Utkal Labs

MOMENTS THAT MADE US SMILE

Gopabandhu Barik

BIRTHDAY

Wishing you a joyous birthday. Your camaraderie knows no bounds. Your wit sparkles like stars. Your presence is a warm embrace. May your kindness and culinary talents flourish! Cheers!

WORK ANNIVERSARY

Celebrating two years of brilliance and dedication! Alok, your ingenuity has been a driving force in our success. Here's to many more years of innovation and collaboration. Happy 2nd work anniversary! 🎉🎈

Alok Kumar

SOCIAL MEDIA STAR FOR THE MONTH - AUGUST 2023

As part of our rewards and recognition policy, we have introduced special categories to honor colleagues who consistently go above and beyond in promoting the organization on various social media platforms. To celebrate these unsung contributors, we launched the 'Social Media Star' category starting in May 2023. Each month, we will acknowledge such efforts based on their social media activity and announce the winner in the subsequent monthly meetings. The winners will be honored at the Annual Meet.

Starting this month, we're announcing the winners as UL - Cyber Sensation. For this month, let's give a big round of applause to **Subham Mahapatra**.

Congratulations to you!

Subham Mahapatra

ODISHA SPARKS CONCLAVE, 2023

Our team had the opportunity to attend the Odisha Sparks Conclave, presented by the Government of Odisha and OCAC, in association with CNBC-TV18, and co-presented by OMC in Bhubaneswar on 11th August 2023.

The highlight of the gathering was a detailed discussion on 'Odisha Networked: Taking Giant Technological Leaps.'

Here are a few images from the event -

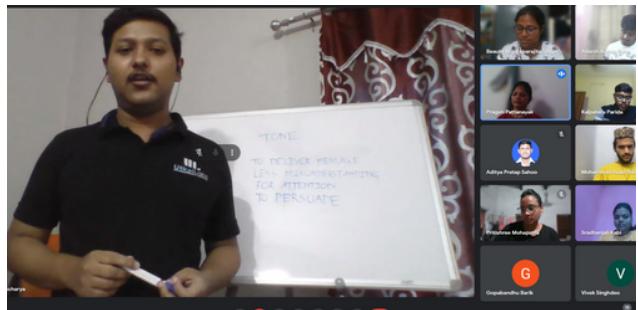

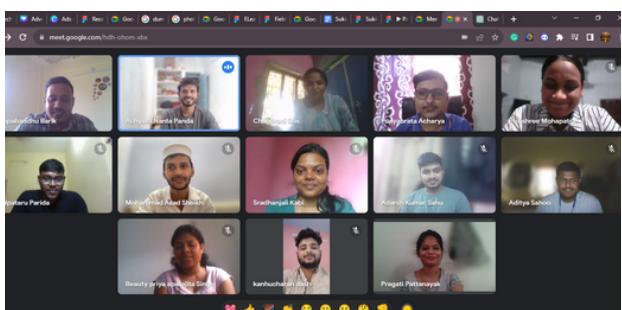

COMPLETION OF COMMUNICATION WORKSHOP

We initiated the communication workshop last month with the objective of empowering our team for all-around development, which includes fostering excellent communication skills.

We designed a six-week workshop wherein we identified and conducted sessions on several key areas of corporate communication.

With comprehensive assessment papers, real-life interaction games, and multiple assignments covering various aspects of communication, below is a brief timeline of the topics that were covered.

Case study on **REAL ESTATE SURVEILLANCE APPLICATION**

Overview

The client wants to build an application that will serve as a digital guardian for the real estate that people typically leave behind at home. This application will provide individuals staying far from their native area, or those who own properties distant from their current location, with a real-time view of their properties.

Client details

Location: India

Industry: Real Estate

Technology

Node, Express, ReactJs, MariaDB, Google Map APIs, Geofencing, etc.

Project feature view

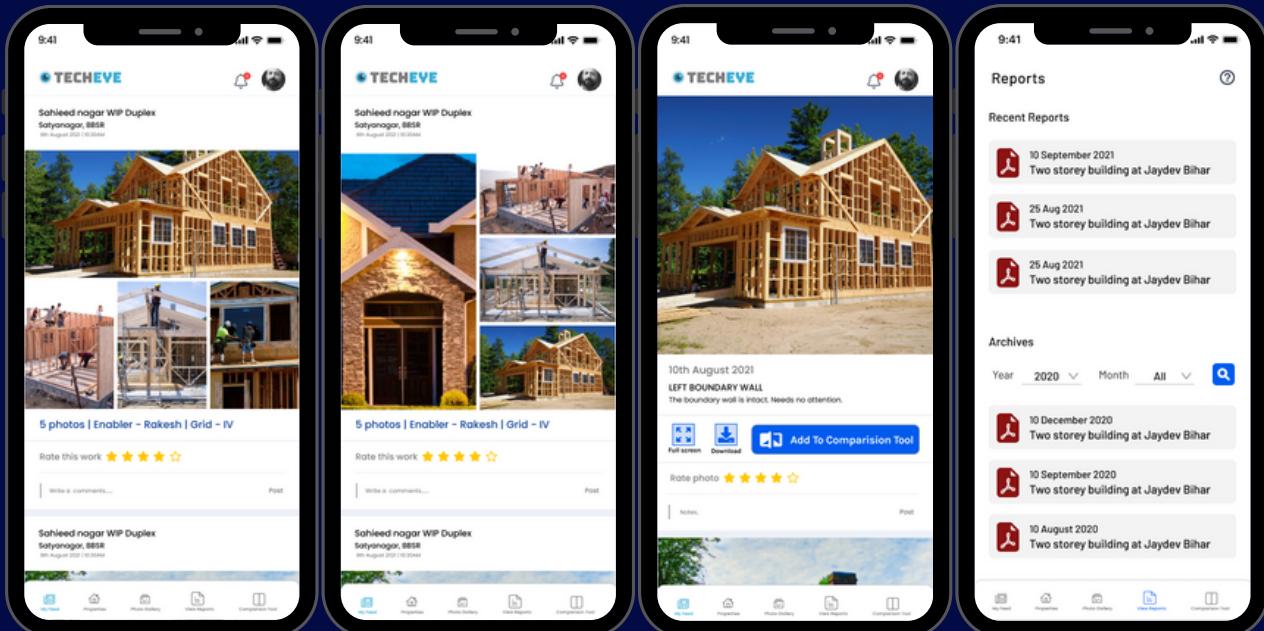

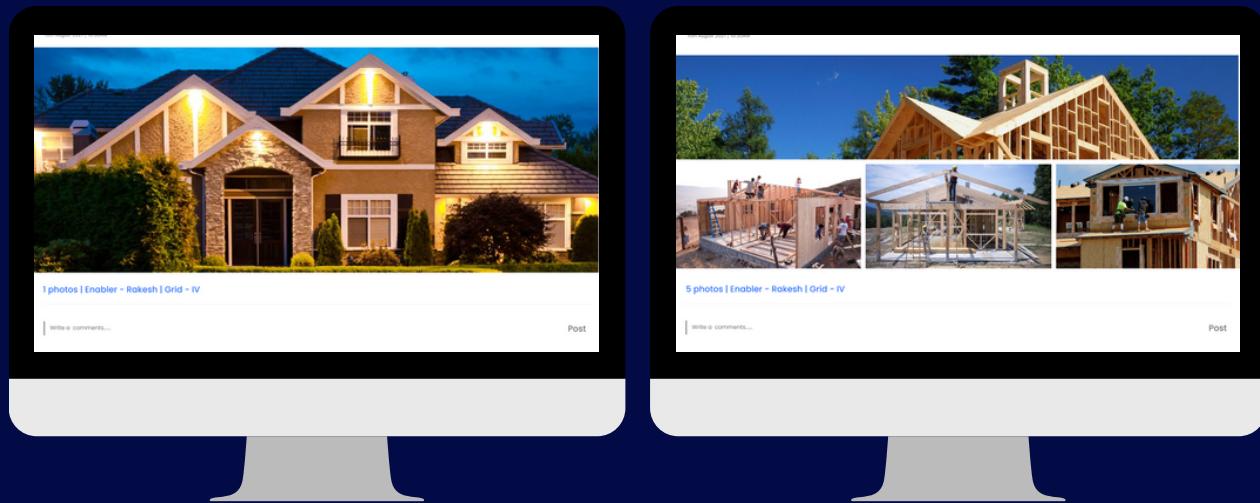

The project is primarily accessible through three roles: **Customer, Enabler, and Super Enabler**.

Customers can subscribe to the service on a monthly, annual, or weekly reporting basis. After a successful subscription and completion of KYC verification, they will receive a geofencing link to enable the application to identify the property boundary. Scheduled images and videos will be delivered to the customer's feed, allowing them to make comparisons and track changes over a specified time frame.

Enablers will play the role of managing on-field reporting. In certain subscription cases, they can also handle geofencing. Upon every login, their IMEI is checked to ensure that they are using the app from their registered device. Additionally, they have the capability to connect with the customer via a video call.

Super Enablers oversee the Enablers. They are responsible for assigning routes, properties, etc., to the Enablers. They can also carry out the same functions as the Enablers.
