JUNE 2023

Volume no - II   Issue no - V

In June, we excelled in the ever-evolving tech landscape. Our focus on cutting-edge technologies, strategic partnerships, and fostering inclusion led to growth and success. By unlocking our team's full potential, we made a lasting impact. We continue to push boundaries, poised for exciting possibilities in the dynamic tech industry.

Message From CEO

Esteemed Readers,

As we traverse the juncture of June 2023, I find solace in reflecting upon our collective triumphs and extending heartfelt gratitude for your indefatigable commitment.

Together, we have traversed transformative landscapes, launched visionary endeavors, and etched an indelible mark upon our industry. I commend your unwavering dedication, for it is through your tireless efforts that we have embraced unprecedented growth. Let us stride forward, united in our pursuit of innovation, seizing boundless opportunities that await.

I implore each one of you to wholeheartedly embrace the winds of change, ardently pursuing perpetual improvement, whilst enshrining the ethos of collective endeavor. With unwavering unity, we shall chart an intrepid course, gracefully maneuvering through the ephemeral currents of an ever-evolving landscape, triumphing against all odds.

Sincerely,

Nirmal Hota

Founder & CEO

Streak of Light on
the highlights of JUNE 2023
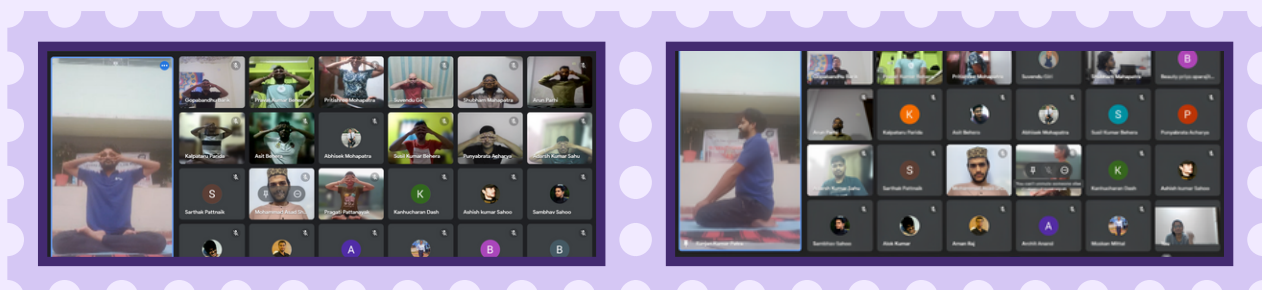

Initiation of communication Workshop

Effective communication is crucial for employees in a technical company. It ensures a clear understanding of project goals, promotes collaboration, and facilitates efficient problem-solving. Transparent communication channels foster a supportive work environment, where ideas and feedback can freely flow. It helps minimize misunderstandings, aligns teams toward common objectives, and enhances productivity. Strong communication skills enable technical employees to convey complex concepts, share knowledge, and build strong professional relationships.

1st Session - Communication Basics were discussed in the 1st week. This is a six-week-long workshop where the next sessions are scheduled with our beloved colleague, Punya.

Celebration of International Yoga Day

Yoga is of utmost importance as it promotes holistic well-being. Physical postures, breathing exercises, and meditation enhances flexibility, strength, and mental clarity. Yoga reduces stress, improves focus, and cultivates mindfulness. It fosters a balanced and harmonious lifestyle, nurturing the mind, body, and spirit.

Keeping this in mind we conducted a virtual yoga session guided by an eminent yoga instructor and here are some glimpses of the same

Social Media Star of June:

As a part of the rewards and recognitions policy, we have initiated the amazing categories to felicitate our colleagues who are always a step ahead when it comes to promoting the organisation on various social media platforms. In order to celebrate such silent contributors, we started the category Social Media Star from the month of May 2023. Every month we will recognise such efforts through their social media activity and we will announce the winner in the subsequent monthly meets. The winners will be felicitated at the Annual Meet.

For this month, let's put our hands together and give a huge round of applause to Udaya Das

Congratulations
Uday aka Tom

ArcGIS Map-Based Travel Application

Overview

This is a locator-based travel app that has been developed for one of our clients in the Middle East. In this Application, ArcGIS Map Layer has been used in the city geographical area in essential places, streets, buildings, and parks are highlighted with geospatial addresses. This will be helpful for the visitors to find the right places. This application also has features like locating any vibrant events that are happening in the city visitors/investors etc. can locate the same using the application.

Client Details

Name: Confidential
Location: Middle East
Industry: Tourism
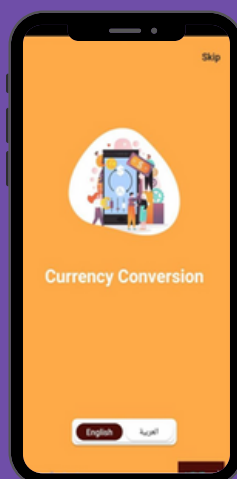

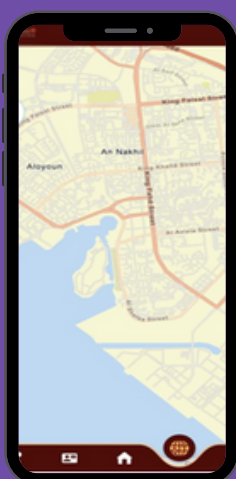

Technology Details

Java for Android
ArcGIS Map
Retrofit

Project Feature View

This is a map-based locator app to help the visitors which has features like locating bus routes, news & events, weather info, city taxi, currency exchange, etc. The app helps the visitors to locate the moving city taxis and their contact numbers.

The information section of the application helps the visitors to show the location-based news, current affairs, other information about the city, ongoing and upcoming events, etc.

Closing notes from HR

As an organisation driven by the pursuit of excellence, we are resolute in our commitment to maintaining the same level of dedication and innovation, setting a remarkable standard for the days ahead.

Together, we will forge ahead, intensifying our focus on employee welfare programs and embarking on various initiatives that bring joy to our work, day in and day out.

Above all, let us remain steadfast in our honesty and integrity, for it is through these virtues that we shall encounter abundant opportunities in the days that lie ahead.
